

2015 MADIDI NATIONAL PARK BOLIVIAN TRIP REPORT

Date: September 10-18th 2015

Tour Company: Nicks Adventures Bolivia

21 plus mammal species including the following: 3 Lowland Tapirs, Jaguar, Ocelot, Kinkajou, Capybara, White Lipped Peccaries, Collared Peccaries, Capuchin Monkey, Tayra, Red Howler Monkey, Squirrel Monkey, Grey and Red Brocket Deer, Neotropical Otter, Golden Palace Titi Monkey, Night Monkey, Black Spider Monkey, Central American Agouti, Striped Agouti, 3 toed Sloth, and a one off sighting of a Giant Otter.

Over 80 species of birds and many different species of reptiles were recorded. Missed species included Giant Anteater which was seen by other tourists, Puma again recorded by other tourists, Margay, Bush dog etc

Tapir Sightings 2 swimming in a river at 1500 and 1 Tapir at night in a Salt Lick with a viewing platform

Jaguar seen by river at 1530, was a brief sighting but saw tracks everywhere. We also heard Multiple Jaguar calling including one that came just 15 metres from us while we were fishing however could not get a picture due to the Chuchilo Grass.

Ocelot sighting at camp scavenging for fish scraps

White Lipped Peccaries in huge groups exceeding over 150, seen every day

Collared Peccaries seen during day treks and by the Salt Licks

Capybara seen to and from the lodge by the river

Neo tropical Otter, seen on the way to the lodge at 0730

Tayra seen by the river at 1300

Black Spider Monkeys seen most days in large and somewhat aggressive family groups.

Giant Otter seen resting on fallen log on river on return to Rurrenabaque

Golden Palace or Madidi Titi Monkey, brief early morning sighting on 3rd day while trekking.

Kinkajous, multiple sightings while doing night treks.
