

## Mammal Watching Master List @ January 2024

This is a work in progress, will be updated regularly, and is now based primarily on the American Society of Mammalogists' Mammal Diversity Database <https://www.mammaldiversity.org/> (MDD). It includes a handful of exceptions, primarily from the IUCN's latest primate taxonomy. The taxonomic order largely follows Wilson & Reeder's Mammals of the World (2005, Johns Hopkins University Press).
